

SHIVAANTA
Action Define Us

Company Profile 2026

About Us

SHIVAANTA is a solar EPC and manufacturing organization established in 2017.
We deliver engineered clean-energy solutions with focus on quality, safety, and lifecycle value.

Core Services

- Ground-mounted and rooftop solar EPC execution
- Solar street lights and solar-powered water pumping systems
- EV charging infrastructure support
- Solar balance-of-system design and integration
- Operations and maintenance services

Products

- ACDB, DCDB, ACCB, AJB and related electrical integration components

Project Portfolio Snapshot

- Commercial, institutional, and industrial projects across multiple Indian states
- Typical project sizes range from small rooftop systems to large campus deployments

Why SHIVAANTA

- Practical engineering and execution discipline
- On-time delivery and transparent communication
- Service support after commissioning
